Cape Elizabeth, Maine

*"Master, go on, and I will follow thee,
To the last gasp, with truth and loyalty.*

SHAKESPEARE

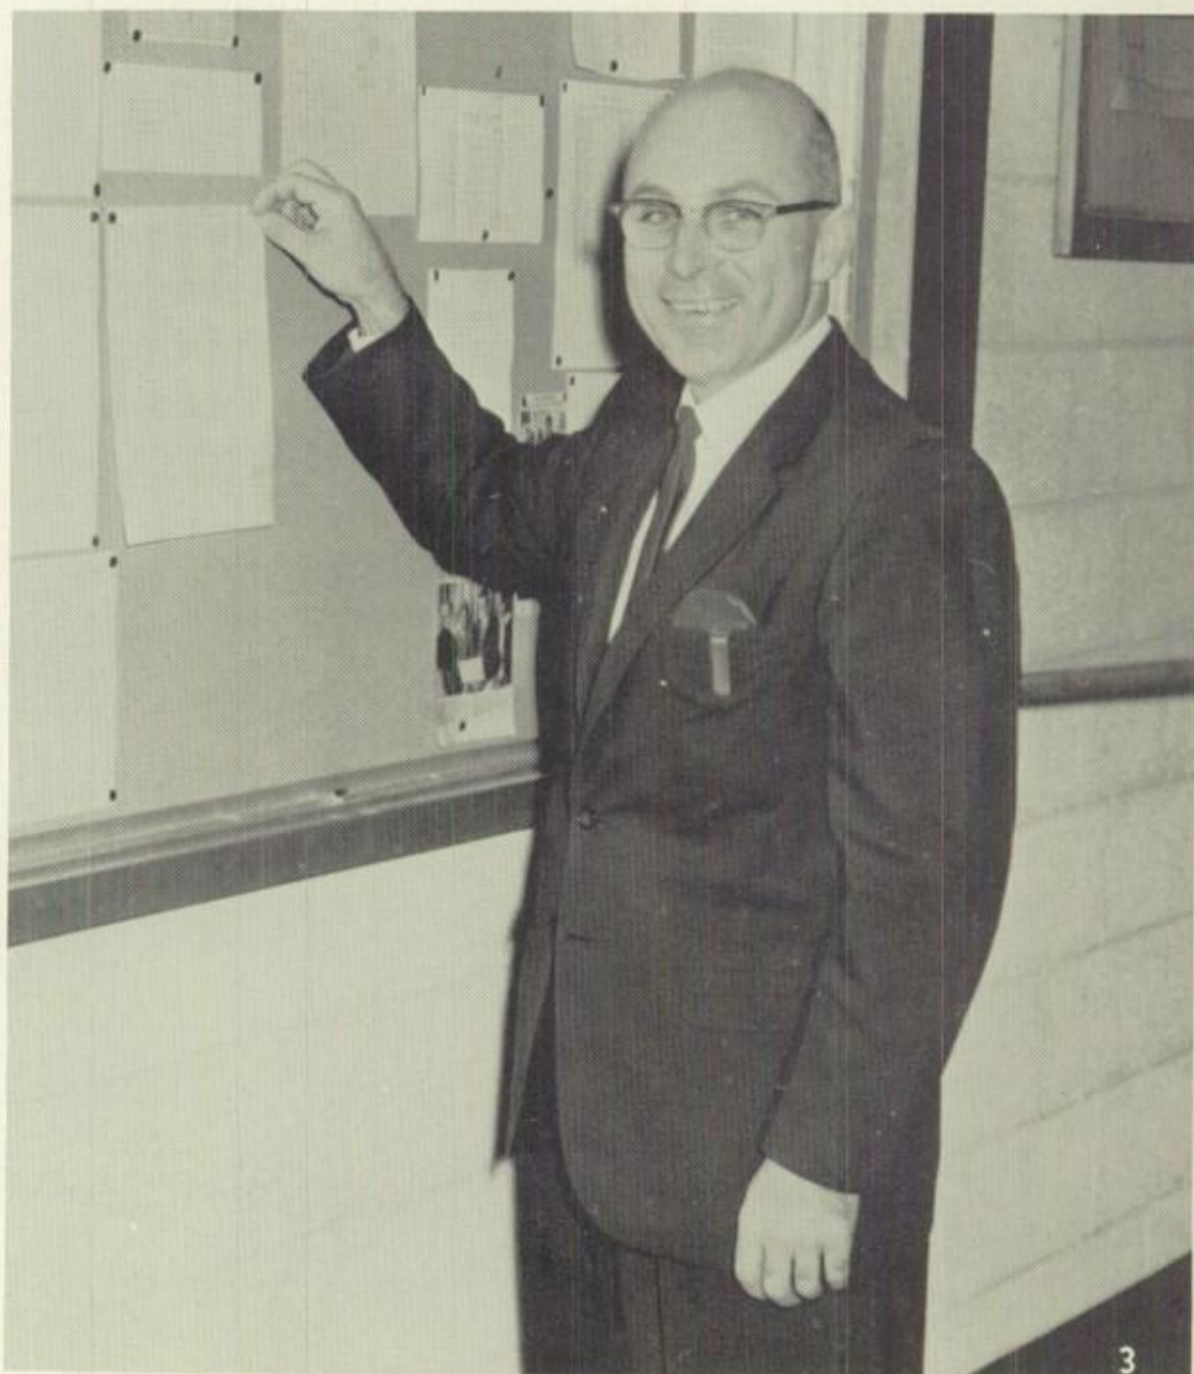

MR. RALPH RICHARDS

Dedication

This is a tribute to the performance of service faithfully rendered during the past seven years by Mr. Ralph Richards. Under his guidance, Cape Elizabeth High School has noticeably increased in prominence and academic standing. As principal, Mr. Richards has worked diligently to make this school one of which the students and community can well be proud.

By working with the Student Council and by encouraging parents to take an active interest in the school, he has tried to bring about a better understanding among the teachers, students, and parents.

To Mr. Ralph Richards, this respected administrator, we, the Class of 1964, dedicate this issue of the Nautilus.

"Loyal to C. E. High."

MR. ROBERT B. LUNT
Superintendent of Schools

Superintendent's Message

"I am told that the theme of your commencement is 'Loyalty to the School.' This can be most valuable to your school and to you if the loyalty is constructive, recognizing that there may be faults in a loved institution, and determining to better them. On the other hand, blind loyalty, refusing to recognize that improvements can be made, is destructive, and is not the mark of the education we hope you may have achieved here."

MR. RALPH L. RICHARDS
Principal

"You have now reached what for some of you will be the terminus of your formal schooling, while for most of you it is but the beginning of specialized education. For the past thirteen years the Class of 1964 has been traveling a familiar route. As you enter the adult world, I hope that what you have learned and experienced during your high school years will serve you well and that you will find you are equipped to pursue the goals of your choice."

ACADEMIC

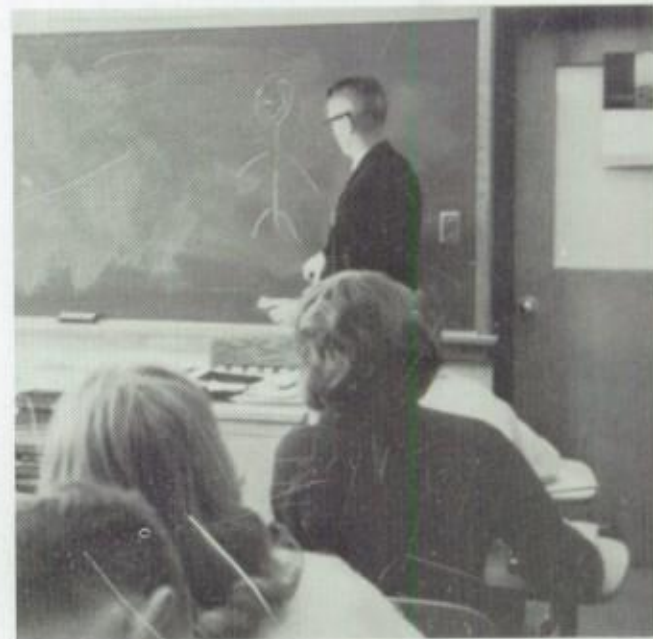

Language Department

Language is man's key to communication with his fellow men; hence, we study languages in order to best express our own ideas and to correctly understand the words of others. At Cape we have the opportunity to study a foreign tongue, French, a classical speech, Latin, and our own native language, English.

Our four capable teachers in the English department are the Misses Flossie and Edna York, Sophomore English, Miss Sarah Franklin, Junior English, and Mr. Joseph Conroy, Senior English. By lectures, often accompanied with maps, diagrams, and crude but expressive drawings, and by informal discussions, these instructors acquaint us with all facets of the English language. We learn to express ourselves on paper and in front of our classmates and to understand the writings of great English and American authors. From Chaucer, Shakespeare, Milton, Dickens, and Tennyson to Smith, Irving, Whitman, and Frost, we study, analyze, and criticize writings and encounter truths which are applicable to our own times. We struggle through grammar, oral recitations, compositions, and great literature, all in the hope that we may form intelligent ideas and be able to express our beliefs.

The French department is headed by Mrs. Drees, Mrs. Stevens, and Mrs. Livada. In French I and French II students grapple with accent marks, declensions, genders, prepositions, and other sticky points of grammar, while the French III classes study great French literature as well as grammar and vocabulary. The teachers help students understand and enjoy the French culture by assigning projects, lecturing, playing records, and showing slides. All Cape French students benefit from two forms of instruction: the classroom manner and the audio method in our modern, well-equipped lab.

Miss Flossie York is in charge of our Latin course which offers one or two years of instruction. In the first year of Latin, students learn how to conjugate *amo* and other important verbs, how to decline nouns, and how to construct grammatically correct sentences. Latin II students translate the adventures of Caesar while advancing their studies in vocabulary and grammar. By studying Latin, Cape students not only acquaint themselves with a classical language, but also give themselves a firm background for English vocabulary.

"Any questions? . . . Any at all? . . . None? . . . G . . . O . . . O . . . D."

"Wait a minute. It's C'est . . . no, Il est . . . ooh . . . !" That French grammar.

"Répétez, s'il vous plait . . ." "Did Caesar conquer Cleo with these?"

Social Studies Department

No fair coaching, Mr. Mosley!

The basic aim of social studies is to establish a strong "Foundation for the Future" by thorough study of the condition in the world, both past and present. A complete understanding of this background can serve as a guide for man in all his future endeavors. This is the fundamental goal of the various social studies courses at Cape.

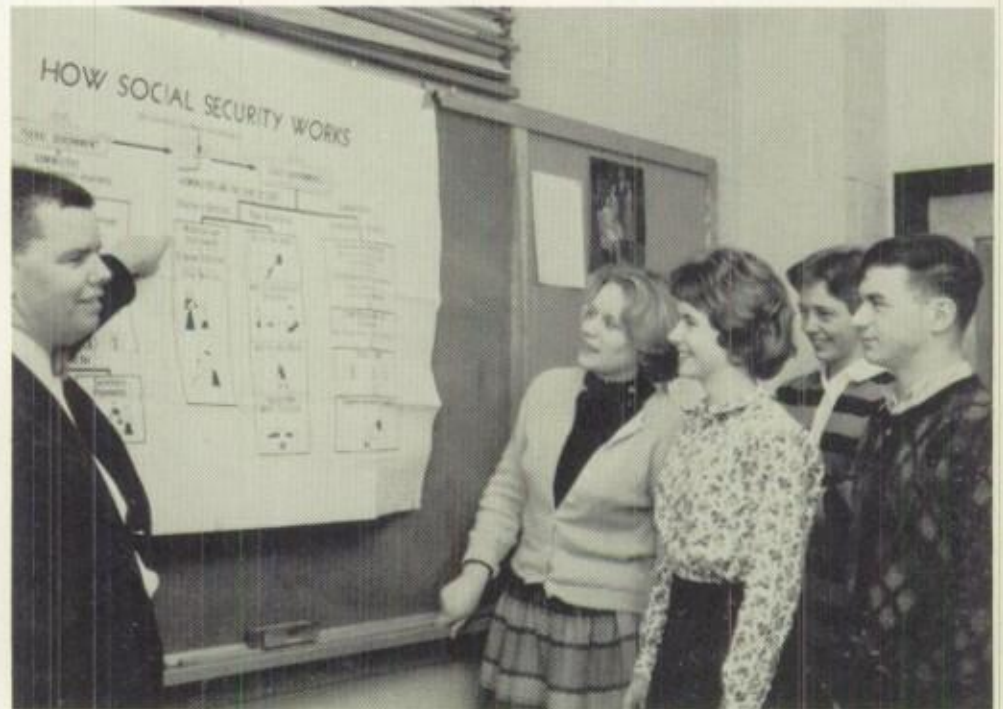

In his usual informal manner, Mr. Mosley relives "The Days (the War) of Roses" during his World History classes. Ruling his class like a Martinet, "Uncle Bob" banishes rebellious individuals to Siberia.

Mr. Rand's World Geography class discusses

the foreign lands "mapped out" for them by the "Fox" in his typical "worldly" manner. This subject provides the opportunity for students to attempt to identify infinitesimal regions of the world.

Consumer Education is a subject which provides a basic understanding of the buying power of the dollar. During the course of the semester, Mr. Rand enlightens his students on the methods of taking full advantage of any and all tax loopholes.

While the students all "listen up" in Problems of Democracy class, Mr. Mosley relates informa-

tion pertinent to the structure of our government and to recent developments in the world. Providing a topic of the day for debate, the "Major" then suggests that they "kick it around." This class also fosters various organizations and corporations such as the New Hanseatic League and Small Mouth Bass Incorporated, which is a memorial to its decreased namesake.

"Rather" it is possible to make a general statement about Mr. Rand's United States History courses or not, is questionable. A study of the development in the United States from earliest

Social Studies Department

Don't pout, Mr. Rand; maybe next year's class will be more attentive.

"Did I ever tell you about the time . . ."

colonial times to relatively recent times is accomplished with various incidental materials introduced. Often during the course of the year, several garrulous individuals find it necessary to submit written reports about various subjects.

The most recent courses added to the cur-

riculum of our Social Studies Department is Modern America. A continuation to United States History, Modern America proves to be a very "crippling" subject. In futile attempts to keep pace with the fluency of "The Fox," writers' cramp is a daily occurrence.

Science Department

The man without a covering.

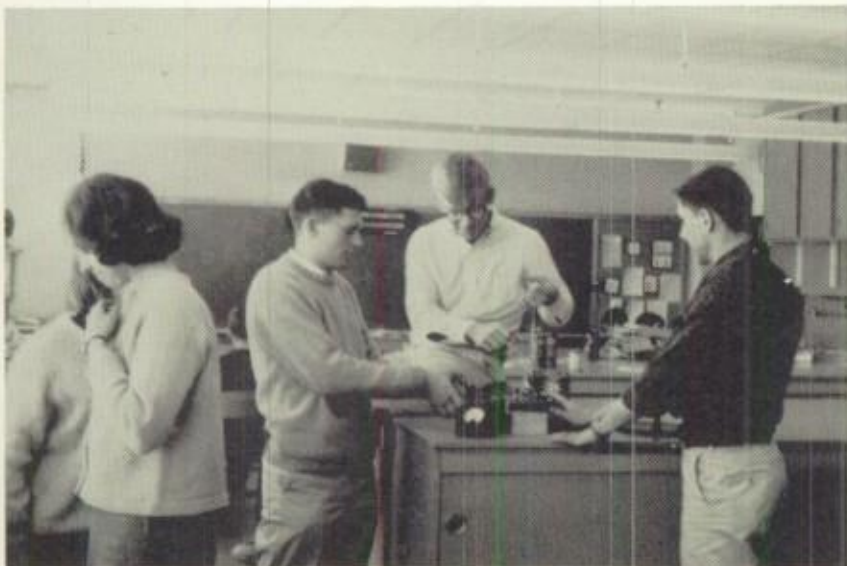

For man, science holds the key to understanding his world. Telstar, the atom smasher, and the various mechanical brains available for our use, all help to make our world more convenient and interesting. Through the various phases of science courses offered at Cape, a whole new field of discovery and then invention is opened.

Scientific experiment in chemistry is bound to produce amazing results, dissection and observation in biology are part of a systematic study of life, and the machines and principles of physics make a firm foundation for the answers to countless common questions.

"Did you get that, Patty?"

Science Department

"Angus, people do get a charge out of you!"

"Don't look at my hand, and tell me what is missing, this is a test!"

"I knight thee magnesium, minus water."

"Gee, this isn't even my project!"

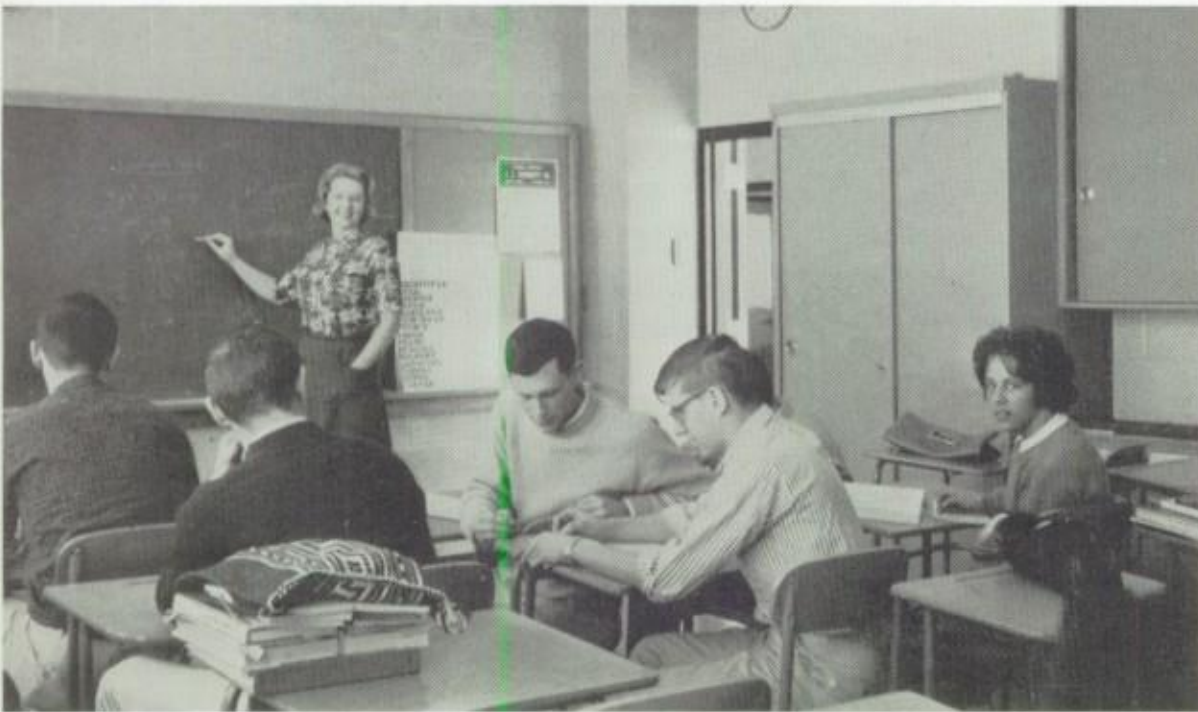

Senior Science is a basic course that teaches diverse fundamentals. Mr. Wigglesworth attempts to give the students a general taste of anything and everything related to the sciences. Various flavors are these: the universe and planets; Newton's laws; electricity, which might be a stepping-stone to a future Physics course; the digestive, respiratory, and circulatory systems; and the metric system—a must in every Chemistry lab. Senior Science is a conglomeration of sciences which present an outline of more complex subjects.

Physics concerns the nature of matter and energy. Those capable students who elect Mr. Jackson's course study Atomic structure; the Kinetic theory; electricity; refraction; and many other topics. Formulas and problems are a challenge to the student who must ponder resistances, ohms, and algebraic equations. In this class, currents are measured, light spectrums are analysed, and Galvinometers are used. Truly, the study of Physics is a challenge.

In Chemistry one derives a real feeling of accomplishment if only a B is attained from Mr. Holman's class. Mr. Holman tries to make the students "Commanders of the Chemicals," but the HCL and the H₂SO₄ seem to revolt. Under Mr. Wigglesworth, the students are continually striving to be "Masters of Equilibrium," balancing equations by many methods, and trying to balance chemicals correctly on the scales so that the percentage of error will be minute. Surprise quizzes three times a week, and surprise results from experiments make Chemistry an interesting course for the student who is willing to work for an education.

Biology, under the expert guidance of Mr. Conley and Mr. Bruce, is an extremely diverse area which ranges from the simple Protozoa to the complex homosapien. Dogfish, frogs, and foetal pigs are subject to the exploratory knife of the student. In first year Biology, the various kingdoms and classes of animals and plants are studied, as is the human. Advanced Biology is an extremely difficult course which the students confront with a Medical dictionary in one hand, and a scalpel in the other. Advanced Biology is an intensive, intricate study of the human being with much emphasis placed on the circulatory, muscular, and skeletal systems. The torso becomes an old friend within the span of this course. A true test of one's ability is to take Advanced Biology and maintain a high average.

us a more acute sense of logic and reason. Also, Algebra is the corner-stone for pursuing the more advanced forms of mathematics and science. Geometry, as taught by Mr. Wigglesworth, teaches us the values of thoughtful reasoning and deduction which will help us not only in calculating future mathematical problems but also in solving other seemingly unrelated questions in our lives.

Advanced Mathematics, taught by Mr. Tyler for the more advanced juniors and seniors, intends to give a solid background for further detailed study of higher mathematics.

Mathematics is a subject studied for a variety of reasons. Mr. Conley, in his General Mathematics classes, endeavors to give us a major idea of the uses of calculation in our everyday lives. In his classes we learn to solve problems which will aid us in the future—in our homes and in business. In Algebra, Mr. Jackson and Mrs. Patten teach us the necessity of exacting computation, to solve more complicated problems, and to give

"Slip-stick" calculating.

The students are given more opportunities to work on their own, studying such subjects as trigonometry, solid geometry, and even simple calculus. In addition to all the wonderful instruction we receive, each math student is required to do an outside research project for a state-wide fair.

Physical Education Department

Bonnie flies high!

Before the late President Kennedy placed an emphasis on physical fitness, American education had stressed intellectual development for many years. It had, however, neglected social, emotional, ethical, and physical growth. Now, physical education places a responsibility and a challenge on boys and girls which helps them in their everyday life in the school and in the community.

The Art Departments, industrial and creative, are used to stimulate a student's skill in these fields. Whether it be painting a

Through stimulated classroom discussions and personal, often amusing anecdotes, Mrs. Wagnis has continued to make the senior special class the interesting and beneficial course that it is. It is a course that enables a free and open expression of ideas concerning many controversial subjects.

Based on the belief that, in the family, feelings and relationships matter most, the various aspects of successful family living are taught with warmth and understanding.

"No, no! Not the finger! Let me show you how to do it."

Business Department

Too bad they don't supply these in math.

The Business Department is devoted to the establishment of proper working habits for the typist, stenographer, and fellow associates. To achieve this goal, the students are drilled in the fine points of bookkeeping and other essentials of the business world. Practice, practice, and more practice is the demand made of the new typist. For him endless sessions with the record player and one glorious term paper is required for

passing the course. Those who do not feel the need for furthering dexterity may elect the course without credit.

One who is seriously pursuing a career in secretarial work or business administration concentrates on adding machines, filing systems, and stenography books. After Mrs. Peabbles' fine instruction, Cape students are prepared to continue their education in business.

Norway Day

"Velkommen"

Shouts of "velkommen" and "ya" fill the halls of C.E.H.S. on March 13th, for the A.F.S. is sponsoring a Norway Day program in which five foreign students join with Erik to celebrate his special day. The whole school unites to create the Norwegian atmosphere: the faculty supplement the regular lessons with pertinent facts of Norway; a Caper Copy Extra is published with even a Norwegian cross-word puzzle included; folk music fills the morning air; corridors boast of colorful travel posters and skilfully painted art exhibits; and the library and the trophy case contain many articles from Viking ships to deer skin slippers contributed by the Norwegian Embassy and interested members of the community. This week of events climaxes at an assembly in which foreign students perform their favorite folk dances, a color film, *This Is Norway*, is shown, and speakers tell of their native land. It is hoped that all who participate in this program gain knowledge of Norway and greater understanding of Erik.

At 6:30 on this eventful day, loyal supporters met at a rendezvous point to stage a car caravan in honor of their candidate. For more than an hour horns blew, supporters yelled, and candidates spoke. As the hour of 8:00 approached, the parade of supporters with their candidates moved from the streets into the school building. Here, presenting their

PRESIDENT Bradford Tukey

The basic aim of the Cape Elizabeth Student Council this year has been to improve and coordinate the activities of the school. Early this year the Student Council Constitution was revised. The College Workshop had a new vocational field added, making the basic program more flexible. In response to the Scholarship Loan Fund, the council sponsored dances after the basketball games with all proceeds channeled toward the fund. The Winter Carnival and Cape Olympics were held and met with great enthusiasm. Visits with other Triple "C" Student Councils and school evaluations were important phases in promoting better inter-school relations.

All these add up to a better school for you, the students. But programs are not what make a school. The attitude of the students, their enthusiasm and loyalty is the core of a good school. The students may display a "so-what" outlook. Fortunately, this is not the case most of the time, but even these few periods loosen the morale of the school. If these feelings are eliminated, the school populace will become closely knit with enthusiasm and loyalty. Then and only then will Cape be a complete high school.

Character, scholarship, leadership, service—these are the four major ideals which the National Honor Society has initiated into an active policy during the school year. The promotion of these points is the Society's primary concern for the expansion of better school citizenship. By continuing and broadening the tutorial system, by raising money for the Cape Elizabeth Scholarship Loan Fund, and by issuing academic awards, the National Honor Society hopes to encourage scholastic excellence and achievement.

The American Field Service has been continually at work this year furthering the understanding between peoples of the world. Last October, the AFS held an assembly with the purpose of stimulating interest in American Field Service Program. We were all very pleased this year to have Lucinda Neily, chosen as an AFS finalist, go to Australia. In March, we featured a three day program "Three Days in Norway" in which Norwegian displays, travel posters, and exhibits were placed around the school. The program was completed on Friday with an assembly which everyone enjoyed. A sea of maroon and white octopi have been seen floating around the school since basketball season which were bought with enthusiasm by students and parents alike.

The main purpose of the club is to keep the people of Cape Elizabeth from being hurt by accidents which could have been prevented. The safety club has one problem, however—that of support. Strike!! Yeah!! Cape Elizabeth High School's girls' bowling team has scored again! Mr. Gilley and his anxious teams, who compete each week with Scarborough and Old Orchard, are persistently striving for those team trophies which the Big 20 gives at the close of the year. Like the girls, they, too, are trying for that top position. They might just do it too! "I'll get it for you guys," declares Buckey.

"Oops, it went the wrong way."

Who can ever forget: "One! Two! Three! Four!" in Calisthenics . . . the Russell luck . . . Pete's "Me-e-e-e?" after a foul and "That's a corker." . . . Blake's domineering of the field and his "Okay, you guys, down on your backs" . . . our hate huddles . . . Buckey's directions written on his wrist . . . Rick's spikeless shoes . . . Lunt's running in place . . . and Mike's two goals for Yarmouth?

Triple "C" Soccer Champions

This year Cape's soccer team was lead by co-captains Randy Blake and Bucky Olmsted. Under the strategic planning of coach Leroy Rand with the able assistance of alumnus Gary Canales, the Cape booters captured the Triple "C" Soccer Championship. A smooth functioning team with veterans Terry Fralich, Dick Russell, Rick Dennison, and Steve Lunt along with a valuable new asset Mike Brown wrenched the Tri "C" crown from the hands of the Scarborough Redskins in a final play off. Outstanding roles were performed by our goalie Ed Waklin and Pete LaRose who, as only juniors, proved to be more than our opponents could handle.

CONGRATULATIONS!!

Coaches

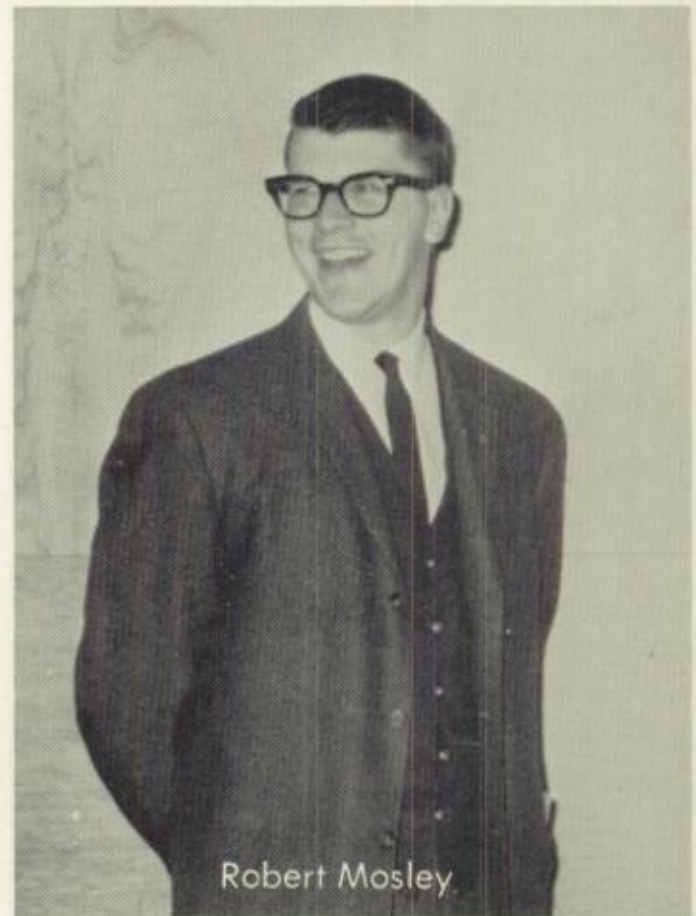

Basketball, softball, and hockey are just a few of the many sports which Miss Drake coaches. She also has greatly expanded the inter-school athletic program in which Cape is a leading participant. Miss Drake has an outstanding record both as a coach and as a Physical Education teacher. "United we stand, divided we fall."

By taking an active interest in the sports curriculum of Cape High, Mr. Hotham has noticeably increased our athletic department. Whether it be tennis, cross-country, or basketball, he gives his valuable time and attention to each individual. Win or lose, Mr. Hotham advocates good sportsmanship on the part of his team. "A man who never made a mistake never did anything."

While coaching the baseball, soccer, or basketball teams, Mr. Rand gives much time to the development of the sport. He works long hours on a complicated schedule to give the boys the practices they need. This is done so the boys of our school may have a strong athletic rating.

As dramatic and track coach, Mr. Mosley has contributed much to each field. Through his continued efforts, both organizations have greatly expanded, and they are now an active part of the school. We are very fortunate to have such an energetic coach as Mr. Mosley.

Mr. Donald Richards, a math teacher in the junior high, has taken the responsibility of coaching the girls' and boys' swimming teams. New to our coaching staff this year, he has proved himself to be a very able and hard-working man. Both teams, particularly that of the girls, have benefited tremendously from his skill and patience.

Field Hockey

L to R: Miss Drake, C. Smith, C. Williams, P. Maroon, M. Bennet, C. Chalfant, J. Bacastow, M. Friberg, C. Barber, S. Jorden, K. Farmer, K. Perkins.

The varsity field hockey team emerged from a successful season with a total of 7 wins, 1 loss, and 1 tie. Cape beat Deering 8-0 for one of the major upsets of the year, but gave up its only loss in a long, heart-breaking game with Waynflete (2-0). Carole Barber was high scorer with 15 goals.

The junior varsity shows great promise for next year. They finished with a 6-2 record to their credit, with high scoring by Wendy Russell and Jane Scott, with 7 and 6 goals respectively. Good luck to the future team!

"Take your mark, get set, go!" Cape's cross-country team is once again running the 2½ mile course. Although there are few high school boys on the squad, there are many promising ninth graders who will be an even greater asset to the team next year. Under the guidance of Mr. Hotham, the team has the potentials of being a first rate sport.

This year the varsity basketball team had a fairly good season. Although the team wound up with a 6 win and 8 lost record, this does not show the true potential of the team. At all times there was no lack of hustle and desire, and the team continually showed the opponents a strong defense as well as a finely drilled offense. We are all proud of the fine basketball played by the varsity this year. We would also like to thank Mr. Hotham for his tremendous coaching throughout the season.

The junior varsity has been an exceptionally scrappy team this year. Under the coaching of Leroy Rand it has participated in both the Triple-C Conference and the Y.M.C.A. League. Although there has been some switching of players between the Varsity and Jayvees, Paul Beeler, Tom Turek, Rick Bates, Bill Sternburg, Don Fuller, and Mike Doyle have been consistent contributors to the younger squad.

The girls varsity team will be a long remembered group by their coach. Defensively the varsity is superb! Deft blocks by our tall guards have dampened the spirits of many a team. So far, the record doesn't equal the team's true worth, for the ball-handling has been slick and fast. The game was given even more pep at Bonny Eagle where a jump-ball was used to begin each quarter. Look for bigger and better things from Cape. Our lay-ups are impressive; our defense is imposing; our Juniors are tremendous rebounders; our Captain is an All-Star; our foul-shots are improving; and our coach, Miss Drake, is inspiring.

"Come on, ball!"

The junior varsity, strengthened considerably by a number of very able seniors, experienced veterans, have tasted victory throughout the season. There is great depth on the bench with thirty-odd members. Unique roll-passes, and enthusiastic shooting have put their label on the team. The J.V.'s spirit is commendable; their large number is a tremendous source of variety on the court. Quite obviously, Miss Drake will have many an experienced player for next year's varsity team.

With one event left, score tied, Mr. Mosley tells Captain Steve Fotter to keep calm. The race is run, and Cape wins. Although the team's record was 2 wins, 5 losses, the members of the track team were formidable opponents in each contest. The team will have many veterans returning, promising a fine season for '64."

Swimming

"Splash! There goes Karen to win another blue ribbon!" Placing first in two events, Karen aided our girls' team to a second place in the Triple C Meet. They lost to Falmouth by a hair-splitting 35 to 32½. Betty Strout and Ann Neily also made very fine showings. The team, under the coaching of Don Richards, is holding practices every Saturday and competing in meets.

In the boys' Triple C meet, our team captured a fourth place. Mr. Richards coached this team, also, and the boys did a fine job. There are several ninth graders who will be working hard the next three years. Work hard, boys!

Best of luck to you Don

The year 1963 marked the emergence of Cape's first formalized tennis team. Beginning soon after the basketball season, practices were held in the gym with any interested members of the "Tennis Club" welcome. We obtained permission to use the Fort Williams courts; and when all the snow had melted, daily workouts were conducted by Mr. Hotham. By the start of the actual playing season, Cape had molded a fairly formidable six composed of John Northgraves, Dick Russell, Val Dovey, Roger Clark, Steve Lunt, and Terry Fralich. Although we dropped two tough matches to Portland and UMP, we finished with a 4-4 record. The girls squad also held one match with Waynelete. With membership in the Greater Portland Tennis League and the coaching of a new mentor, Mr. Jackson, our second year should prove to be even better than the first.

"Fair ball," "ground ball," and "you're out" were calls often heard at Family Field last spring. The team, with white blouses and blue dungarees, has had a successful year of team work and great sportsmanship. Hopes are that the team will enjoy continued success in the future. Good luck, girls!!

With a commendable record of 7 wins and 4 losses, the 1963 baseball team tied for second place in the Southern Division of the Triple "C." One of the highlights of the 1963 season was Mel Searles' magnificent 12th inning, no-hitter against the Gorham Rams. Although Coach Leroy Rand has lost the valuable services of graduated seniors (Mel Searles, Keith Weatherbie and Steve Bates) he expects to have a good season this year with a strong nucleus and a fine pitching staff in his second season as Cape's baseball coach.

and your ability will be recognized. Your starting salary should climb with regular increases. And, of course, Company benefits, security, and regular advancement are well-known reasons why working for the Telephone Company is so attractive to graduates.

TELEPHONE JOBS ARE IMPORTANT,

vital to the effective communications of the community, the nation, and the world. When you take your place as a respected member of the telephone community, we'll train you, on full salary, even without previous job experience.

Why not come and see our employment interviewer soon . . . before you graduate? Ask your Guidance Counselor to tell you when and where to apply.

We would like to take this opportunity to thank those who gave much valuable time to the construction of this year's "Nautilus." The solicitors put in much time over the summer to secure advertisements which were so essential to the success of the yearbook. The staff and typists were very important in organizing, in composing, and in typing. Also, we would like to especially thank Miss Edna York for her assistance and supervision in planning the "Nautilus" for the class of 1964.

CAPE PEPERS

Don -

I really don't know what to say,
but I know that you want me to write
something - so here goes. It sure has been
nice getting to know you as well as I
tip blues I talk him here & there.
I'll never forget
all of the wonderful times we've had
together and I hope you will think of
me often.

Well - we got in two classes together next
semester. I hope I can make it through
chemistry. You'd better help me! I have to
keep a straight A average.

Well another summer is on its way - I hope
you'll be out with me and stay with
me - (that's all I can say about it).
(nothing)

Have fun at Hines - and on your days off
to town - or - wherever you want - no
kisses.

I really can't say what I want ^{at} but you
know all about that anyway.

My memories of you will always
remain in my heart forever.

Love,
Kitty (surprise)

P.S. Watch yourself with Debbie, Dinnie, etc.
